WELL DONE TO EVERYONE WHO TOOK PART

Event Awards

With over **65** complete teams taking part the events were hotly contested. We didn't quite have a full complement across all age groups and School Sport Partnership Areas/Networks but it is the first event and it was a short week so we are sure that this will improve over the coming weeks. Reviewing the scores at county levels it was really only seconds and centimetres that made the difference! This week the winners of the School Sport Partnership Areas/Networks were put forward to the county final (following our usual model for our events). As we get more schools involved we hope to be able to have award categories for different size schools. We will not be releasing scores as the emphasis is on taking part and enjoying the challenges and the pupils have their scores to improve their Personal Best.
