

Arabian Horse Tile Design

By: _____

As a school we are designing a painted horse sculpture for the Dubai International Arabian Races. This will then be returned for us to have displayed permanently at the front of the school.

As the inspiration for the design we would like you to combine colourful flowers with Islamic patterns to create a tile which will be painted onto a green background. Please see the school website www.longlane.w-berks.sch.uk home page for full details and power point of ideas. We would like children to start gathering ideas, for example, looking for Islamic style patterns and flowers, taking photos/sketches of patterned fabrics/wallpaper/tiles, to bring back into school to use in their final designs. These will be done in classes during the last week of this half term.

If any parents are interested in being involved with the painting part of the project (working with small groups of children) after half term, please contact Mrs Whitehall via the school office.

We are looking forward to seeing all the lovely design ideas.

Thank you for your support on this very exciting project!

Mrs Whitehall
