Dates for your diary

Mon 16th April – parents meetings as part of our INSET day
Tues 17th April – start of new term

This week's learning

Reception

This week we have enjoyed hunting for and matching egg patterns, listening to the story of Easter and made craft items linked to this theme.

Year 1

We have been busy with Easter maths problems and spring crafts in Year 1 this week. We have also enjoyed creating our own sporty games and challenges in PE and writing instructions for how to play them.

Year 2

This week we sequenced the events in the Easter story. We completed some Easter craft and learnt about food chains. In Maths, we have been very busy completing challenging quizzes.

All Infants enjoyed an Easter Egg Hunt on Thursday morning; we witnessed great team work across the year groups!

Reminders

- Please check your child's **PE kit** over the holidays and ensure that ALL items are clearly labelled, including socks.

Year 2

Optional English and Maths challenges have been set for the holidays, please see sheet in book bags. If your child wishes to complete any, we would love to see their work after Easter.

Year 1

Please continue to share stories and books and listen to your child read regularly. Year 1 is a very important phase in your child's reading development and it is the ideal time to encourage a love of reading.

Reception

- Please go through the KEYWORD SETS at the back of the reading record books over the next few weeks.
- Please make a diary over the holiday about exciting days out to encourage the children to write using their phonics skills.
- Please recap number recognition and ordering of numbers to 20 if your child can not do this confidently.

Morning Routine: After the holiday the children will be expected to come into the class by themselves.
Forest School will change to some local nature walks next term, please look out for details next term.

Have a lovely Easter break!
